

GT06E - 3G Multifunctional Tracker

GT06e 3G gets you a step ahead with 3G capabilities and better tracking, ideal for fleet tracking and management. Utilizing cutting-edge GPS technology, the GT06E features not only traditional tracking functions as tele-cutoff petrol, geo-fence, SOS alarm, over speed alert, but optional digital outputs for door detection, vehicle pinpoint by audio-visual alert, external power voltage etc.

Real-time GPS locations

Use 3G network (outstanding coverage, no 2G worries)

Multiple analog & digital I/O

Monitor and control external application via inputs/outputs

Ignition on/off alerts and Disconnection alerts

Alerts for engine is switched on or off and Alerts for device disconnected from power

Multiple alarms

One of the smallest hardwired trackers in Instant alert for vibration, overspeed, geo-fence

Remotely cut off fuel/power

Compel the vehicle to stop by breaking off the fuel connection

SOS emergency call

Thumb sized button allowing urgent call during an emergency case

Market Applications

Parameters

Communication System	WCDMA/GSM
GPS	MTK high sensitivity chip
Networks	WCDMA /EDGE/GPRS
TTFB(open sky)	Avg.hot start≤1sec Avg.cold start≤38sec
Built-in Battery	450mAh/3.7V industrial lithium polymer battery
Device dimension	98mm*52mm*15mm
Operating temperature	-30°C ~ +80°C
Operating Voltage	9V to 33V DC
Device weight	80g
